

## Binks F200 & F400 Flow-Guns

### Advanced, Light-weight Pistol Grip Flow-Guns

The Binks F200 & F400 are advanced light-weight, pistol grip flow-guns for the extrusion of sealants, mastics, putties and adhesives. The F200 is an ultra-light-weight gun for multiple applications up to 4,000 psi (275 Bar), while the high-pressure F400 is for applications using pressures of up to 6000 psi (414 Bar). The adaptable nozzle connection options, available on both guns, allows existing nozzle tools to fit onto the Binks guns.

#### BINKS F200 & F400 FLOW-GUNS
